ARRIVAL FROM SAN FRANCISCO.

FOUR DAYS LATER NEWS.

Execution of General Walker.

THE STATE OF ITALY.

GENERAL NEWS ITEMS.

By the arrival of the schooner D. L. Clinch from San Francisco, we have been placed in possession of files of San Francisco papers to the 10th instant. The news is very interesting, and confirmatory of that received per Overland Mail.

California.

The steamer John L. Stephens, with the mails and passengers, which left San Francisco Sept. 11th, was disabled about 48 miles below Acapulco, by the bolts connecting the piston-rod of the engine to the crank-pin giving way, and driving the piston through the bottom of the cylinder. With the assistance of the U. S. sloop of war Cyane, the Stephens succeeded in getting to Acapulco on the 25th Sept., and when the Golden Age arrived at that port from Panama, was taken in tow and brought safely to San Francisco. The damage will cost \$30,000 to repair. Not a single person was injured by the accident.

Lieut. Watkins, U. S. N., died on board the Stephens at Acapulco, on the 18th Sept., of consumption. He was buried with the usual honors on shore.

Broderick's will was admitted to probate on the 7th Oct. McGlynn and Butler were appointed executors. An application will be taken to the Supreme Court.

Two hundred guns were fired from Telegraph Hill by the Republicans on the 7th, in honor of the election of Col. Baker as U. S. Senator from Oregon.

Julia Dean Hayne is playing at the San Francisco Opera House.

Prince Kamemeha and suite have received much attention in San Francisco.

It is reported that Jack Powers is dead. The story goes that he and others were to rob a convoy of treasure in Sonora, Mexico; that the party in charge was prepared for the would-be robbers; and that Jack was killed and several others wounded.

The States.

The news from the United States is one day later than that received by overland mail.

The British steamer Gladiolus arrived at New Orleans on the 27th Sept., with the remnant of Walker's party. Walker was shot at Truxillo on the 12th. He received ten bullets, amid the cheers of the populace. His body was decently buried by foreigners. Col. Rudler, second in command, was sentenced to four years' imprisonment.

At New Orleans, Sept. 29th, the commander of the British war-steamer Gladiolus, was assaulted and knocked down in the bar-room of the St. Charles Hotel.

Nine persons were instantly killed at Pittsburg, Pa., Sept. 24th, by the explosion of a boiler.

The slave brig Storm King, brought from the coast of Africa, was taken with 619 negroes aboard, who were landed at Monrovia. The slave brig Erie was captured at the same time with 800 negroes, who were also landed there.

A man named Newhall has been fined twenty dollars and costs of prosecution, at Worcester, Mass., for sending to a newspaper a false account of a man's death.

E. R. Rope, a joiner, of Quincy, Mass., quarreled with his employee, France Jortier, and shot him dead, on the 22d.

T. D. Rice, the well-known negro deli-

neator, familiarly called "Jim Crow Rice," is dead.

A widow named Hannah Jones was shot dead on the 24th, in New York, by Wm. Norris, to whom she was engaged to be married.

Flora Temple won a great race in New York, on the 24th; time, 4:55, 5:00.

A dispatch from New York 25th, states that the great \$20,000 race on the Fashion Course, between Planet and Congaree, was witnessed by 10,000 persons. The withdrawal of Daniel Boone, in consequence of an accident, probably lessened the attendance. The last two miles of the heat were run in a bad shower—Planet, the victor, distancing his rival. Time, 7:39, as follows: One mile, 1:54; two miles, 2:56; three miles, 5:39; four miles, 7:30. Congaree evidently struggled badly in the last heat.

The New Orleans *Picayune* of the 21st September has high authority from Havana for stating that there is something serious pending between Spain and Mexico. An expedition of 20,000 men is now being fitted out there for Vera Cruz.

Official advices from Washington announce the contemplated departure of troops from Vera Cruz against Mexico. Marquez has been liberated by Miramon, and given command of a division.

A well built square in the Fourth District of New Orleans, was burned Sept. 23d. Loss between \$70,000 and \$80,000; mostly insured.

Europe.

Dates from Europe are to the 15th of September. We copy from the *S. F. Bulletin's* dispatch:

Italian affairs are unchanged. The French Ambassador at Turin had been recalled, as an expression of the disapprobation of Napoleon, as to the course of Sardinia.

The Italian journals express regrets that the King of Naples had gone to Spain.

Naples was tranquil. The forts had all surrendered to Garibaldi. The Liberator had exchanged interviews with the English Admiral and Ambassador.

The Sardinian troops had disembarked at Naples, by request of Garibaldi, who transferred the Neapolitan fleet to Sardinia.

There were numerous desertions from Gaeta.

Garibaldi was soon to proclaim the annexation of Naples to Piedmont from the summit of the Quirinal, where all Italians will be invited to a banquet.

Garibaldi's forces were marching on Anano, where reactionary movements had occurred. The royalist colors were hoisted at Livoli, Genoa and Sobraco, but the movement was not supported by the people.

A strong Piedmontese corps was keeping watch on Austria.

Perugia was declared in a state of siege.

The French forces at home were to be increased by two regiments. Gen. Guyon was reinstated in command.

A panic prevailed at Rome. An insurrection had taken place in the Papal States. The Papal troops were defeated by the insurgents, and Victor Emmanuel proclaimed King. Urbina was free. The insurrection was extending to the Marshes.

Victor Emmanuel ordered the Sardinian troops to enter the Marshes at Lumbril, and made a speech, declaring the policy to free Italy from foreign adventurers, and prevent popular hatred from unloosing itself.

France had admonished Sardinia against aggressions.

Russia was seeking perfect reconciliation with Austria.

The wheat crop in the United Kingdom will prove a full average. The harvest in England was making good progress.

German journals state that there is every probability that the Emperor of Austria will shortly have another interview with an illustrious personage, and the Queen of Great Britain is named as the sovereign indicated.

Shortly before the end of July such an immense swarm of locusts fell into the town of Odessa that it was necessary to play fire engines upon the boulevards and town gardens to drive away the unwelcome intruders. No conception can be formed of the extent to which they occupy the flat land, and it was stated that 20,000 men were engaged in destroying them. The insects extended in their course to a length of 600 versts and a breadth of 20 versts, and were in so advanced a condition that they were furnished with wings.

A letter from Trieste, in the London *Morning Star*, gives an account of an extraordinary attempt on the part of the second captain of the Austrian man-of-war Kaiser, to blow up the vessel, with every soul on board, the whole of the ships lying in the neighborhood, the yacht of the Archduke Maximilian and all his company, together with the greater part of the town of Trieste. This Austrian-Italian Guy Faux was discovered at the critical moment, and blew out his brains.

Tuesday Morning, October 23, 1860.

Limitation of Foreign Actions Act.

Such is the title to a bill that has recently passed the Assembly, and now awaits the action of the Governor and Council "to be or not to be" law. The bill is one that may affect many of our citizens, and brings up many considerations, which appear to have been ignored in the hasty manner in which it was passed by the Assembly. That some local law was required on the subject of limitation of actions, we admit. But we have serious doubts whether the law which has been proposed to be enacted, is the exact thing we wanted. We hold that too narrow a view of the question has been taken, and that the object apparently has been only to legislate for the relief of those of our residents who may have contracted debts in California. No consideration has been given to the *lex loci* of other countries, or even the law of Vancouver Island. It is therefore but partial legislation, and deserves to be remedied. For instance: this law has been introduced for the relief of such of our residents who may have been in debt in California, or such as may be disposed to come here from that State. It has been made to protect such debtors against their creditors; but in doing so all foreign countries have been included. Yet no consideration apparently has been given to the time fixed in other foreign countries than California for the limitation of actions. Our limitation law which we derive from Imperial Statutes, fixes six years as the period within which actions for debt are to be brought. If not commenced within that period, the creditor is debarred from all remedy for the recovery of the debt. The California act of limitation makes the term one year. Other foreign States make the term more than six years, and some have no act of limitation. The working of this bill, if it becomes law, will therefore confer more favors on some of our citizens than on others. If A contracts a debt in California with B, and fails to pay within a year, he is debarred from all remedy within that State. If A however takes up his abode here, either before or after the expiration of a year after the debt has been contracted; and if B sues him for the recovery of the debt, then A cannot plead the California act of limitation as a bar to recovery. Our Courts, in the present state of the law, will hold that the *lex loci contractus*—the law where the debt was contracted—cannot be pleaded. They will hold that the *lex loci contractus* is no part of the contract. But that A, having elected to come here, he must abide by the remedy that the law here provides; consequently, except he can show that six years have expired since the debt was contracted, he must pay the debt, go to prison, or remain at the mercy of his creditor. It is easy to be seen, therefore, that the consequence would be either to drive away embarrassed debtors, or prevent them from coming to the country. To remedy this evil, the "Limitation of Foreign Actions Act" has been passed by the Assembly; and the object is good.

The means, however, we do not deem to be exactly what we want. For instance, if the present bill becomes law, the defendant in a suit for a debt contracted in California, may plead the one year limitation, and thus escape the payment of the debt, and snap his fingers at his creditors. And this he may do when, at the same time, a party who contracts a debt here, can only plead the six years' limitation. Here is injustice. Shall we be more favorable to foreign debtors than to our own subjects? Shall they have privileges that we cannot enjoy? On the other hand, shall those who have contracted debts in foreign countries, where the limitation is longer than six years, or where there is no limitation at all, shall those men have no relief? Shall they be treated worse than our own subjects? We have no bankrupt law; and yet shall we pass such an act as this? Take either horn of the dilemma, and there is injustice either to our subjects or to different classes of foreigners. The true principle is to treat all alike.

If it is urged that the *lex loci contractus* is part of the contract, we deny it. Such authorities as Story, in the United States, or Brougham, in England, have opposed such doctrines in their decisions on the remedies for foreign actions. It is the *lex loci*, or law of the country where the suit is brought that governs. If it declares no imprisonment

for debt, there can be no imprisonment. If it fixes one, or six years limitation, these terms only can be pleaded. What we want, therefore, is a local law, adapted to the peculiar wants of this country, limiting all actions to a period not longer than two years at the outside, from the time the debt was contracted—previous contracts made in this colony excepted. If such a law were enacted, it would avoid the injustice and embarrassments that cannot but inevitably follow the passage of the "Foreign Limitation Act, 1859."

In fact, the proposed law, as it is, is extremely imperfect, and perhaps withal, will have an entirely different effect from that contemplated. We have no definition in the bill of the word "resident." Whether it means a person here to-day, away to-morrow, or one who has resided here a year or a month, we are not told. If by resident, it means any person who lives here for the time being, then such person may go to San Francisco, get into debt, and at the end of a year plead the "Foreign Limitation Act, 1859," and thus escape paying his debts. Then the word "person," if the law be strictly construed, (and how else should it be?) would deprive partners and corporations of any remedy. But a very dangerous part of the proposed law is that which states that "any printed copy purporting to be a copy of any foreign act of limitation, shall be received as *prima facie* evidence of the limitation statute of which it purports to be a copy." This lays the whole open to forgery and fraud, and throws on the debtor the trouble of disproving it; which should be substituted by simply making it imperative that all such copies be proved to be genuine, like any other fact. On the whole, whilst we fully believe that some relief should be provided for insolvents, whether foreign or British—we believe that our true course is to pass a limitation law, not longer than two years, and follow it up with a simple and inexpensive insolvent law, obviating all imprisonment for debt.

THE CARY-NIAS CASE.—Evidence as to the partnership of Attorney-General Cary in the late *Victoria Gazette*, was taken before Judge Cameron yesterday. Mr. Nias testified that Mr. Cary was a partner in the concern; and asserted that the Attorney-General altered and amended articles prepared for publication in the *Gazette*, and exercised a general supervision over the conduct of the paper. Mr. N. also testified that whenever Cary saw a law report in which Barrister Ring's name appeared in a complimentary manner, such as: "The case was ably argued by Mr. Ring," "Mr. Ring pleaded for the prisoner in an eloquent and soul-absorbing manner," etc., etc., he invariably scratched it out; and that "he (Cary) always had a fit of bile when Mr. Ring's name was mentioned." Mr. Cary denies the truth of the evidence in *toto*.

CURIOUS CASE.—Some time since a gentleman of this city died. The widow and friends wished to procure a daguerreotype of his loved features before the body was consigned to the tomb. A photographer was employed and succeeded in obtaining a picture, for which he charged \$20. Payment was declined by the widow, on the ground that while the operator was taking the picture he used and destroyed three handkerchiefs, one sheet, and a bottle each of cologne and brandy. The artist sues for the amount, alleging that the sheet and handkerchiefs were necessary, and that owing to the advanced state of decomposition of the body, the cologne and brandy were absolutely required to keep him from fainting while taking the picture. The cause will be tried shortly before Judge Cameron.

VEIN OF GOLD-BEARING QUARTZ ON THE CHURCH RESERVE.—It is well known that at the commencement of the summer the members of the chain-gang were employed in breaking stone on the Church Reserve. This stone was lately carted to the prison yard, and a number of the prisoners engaged in breaking it for macadam. Last week a small piece of the rock, in which gold was plainly visible, was picked up in the yard, and taken to Marchand & Co.'s Assay Office, where an ounce and a-half of the stone yielded about five cents. A search will be made to discover the vein, and the question arises, will it belong, if found, to the church, the government, or the parties that make the discovery?

THE PRINCE OF WALES.—The Prince of Wales has been most enthusiastically received at Detroit, Chicago, and St. Louis. On the 27th Sept. he visited the St. Louis Fair. Sixty thousand people were present, and great enthusiasm was manifested. It is thought his reception in the States will be equal to any he has met with in the Canadas. His Royal Highness left St. Louis on the 28th ult. for Cincinnati.

VESSELS UP FOR VICTORIA.—The barks Glimpse, D. M. Hall, Adelaide Cooper, and brig W. D. Rice, are on the berth for this place, in San Francisco.

Auction Sales.

P. M. Backus sells to-day, at 10 o'clock, the effects of a deceased officer, at his salesroom; and immediately thereafter, on Pearkes & Howard's wharf, a quantity of groceries and provisions.

J. A. McCrea will sell, at 11 o'clock this A. M., on the premises, Store street, near Johnson, the furniture, crockery ware, etc., of the restaurant of Madame Benoit. Sale positive; terms cash.

CHIMNEY ON FIRE.—The alarm of fire about one o'clock yesterday, was caused by the chimney of the large unfinished house adjoining the residence of Capt. Mouat, on the south side of the bay, emitting a large volume of smoke. The Deluge and Tiger engines were out, but learning that there was no danger, turned back on arriving at James' Bridge.

ASSAULT WITH AN AXE.—While attempting to arrest some riotous Indians at one of the camps on Sunday morning, officer Trura was assaulted by two of the natives with an axe. Other officers rushed to the rescue, however, and saved Trura before any damage had been done. The beligerents were fined £2 yesterday morning.

INDIAN WHISKY DEALERS.—Four or five Indians were arrested on Saturday night and Sunday morning, on a charge of having sold whisky to their brother aborigines. They were fined according to their deserts by the Police Judge.

FOUR MEN DROWNED.—There was a report yesterday, that a whaleboat bound for Fraser River had been capsized in the Straits, and all hands, (four in number) were drowned. We scoured the town for information, but could gain nothing authentic.

SUNDAY TRADING.—A baker's dozen of traders were yesterday ordered to appear before the Stipendiary Magistrate, and answer a charge of selling goods on Sunday.

British Columbian Progress.

EDITOR BRITISH COLONIST:—"Opposition is the life of trade," but the soul of progress, and consequently the deadly foe of monopoly. All of which truths are daily confirmed by some new and striking illustrations tending to the public good. Only a few short years since, Fraser river was pronounced to be a succession of rapids and cataracts, which rendered navigation impossible for aught but Hudson Bay Co.'s barges. However, the spirit of opposition in the practical shape of a Steam Navigation Company, cleared its way upwards some hundred miles to Hope, with a certain degree of ease and regularity; when that city was declared to be the *ultima thule* of ascent—the head of navigation. The favorite district, where governmental dignitaries, official small-fry, and self-denying apostles loved to invest. Thus far and no farther, was the decree of this mongrel swarm of locusts, who gloated over the prospective swelling of their speculations, as their adopted inland capital expanded. But even the breath of apprehension has failed their selfish schemes, and prophetic management. For lo, and behold! the very building of an opposition steamboat has virtually decapitated Hope, and established Yale as the uppermost point of river navigation, a problem which has been mathematically solved by the very Company which hitherto emphatically pronounced it an utter impossibility.

What now will the judges, the magistrates, the parsons, and the official flunkies, say, who were wont so pathetically to deplore the misdirected enterprise of the spirited inhabitants of Yale, and to deprecate a catastrophe, which, in their inmost souls, they most devoutly prayed for. Now that the "Colonel Moody," a boat some hundred and forty feet long, drawing three feet of water, has made the passage from Hope to Yale within three hours, without as much as once putting out a line or encountering any obstacles, steaming over the dreadful Emery's Bar (as it is called,) with no more than 85 pounds of steam. Yes, truly, this opposition is the life of trade and progress. Had there not been a "Yale Steamboat Navigation Company," the "Col. Moody" never would or could have reached Yale. The feat would have been admittedly impossible—a manifest courting of certain destruction, if attempted. But 85 pounds of steam, in conjunction with an auxiliary screw of opposition, has achieved an easy triumph, where monopoly would never have dared to venture. Thus the film has been torn from the public eye, and no alarming difficulty can be discovered, where the selfish imagination used to send forth such fearful photographs of maelstroms and sunken rocks.

However, opposition, in this instance at least, can be progressive without being destructive; for although the interests of Yale, and therewith those of the Upper Fraser generally, will be materially ameliorated by furthering the point of navigation upwards, yet there is "ample scope and verge enough" for the rapid growth and advancement of Hope, from its positive relations with Similkameen and Rock Creek, and it is to be hoped that the small and selfish jealousies between those rising towns, which has been so sedulously fostered by the malign influence of certain high officials, will give way to a fair commercial rivalry, characteristic of British enterprise.

FRANK BEEGAN,

Boot and Shoemaker,

Later from British Columbia.

The steamer Otter arrived on Saturday night from New Westminster. She brought 140 passengers and \$50,000 in gold dust, of which amount Ballou's Express had \$15,000.

Several of the passengers were from the Cariboo country, and speak in glowing terms of the richness of that region. New discoveries are being continually made, and a "rush" to that locality is anticipated in the spring.

The Navigation Company's steamer Col. Moody had made a trip to Fort Yale. She carried 30 tons of freight, and steamed over Emory's Bar Rapids with 85 pounds of steam; while it required 95 pounds to make Union Bar Riffle, three miles above Fort Hope. The steamer experienced no difficulty in making either the up or down trip. She went up in three hours, although she drew three feet of water. This, we suppose, explodes the idea of the impossibility of running a steamer to Yale.

Below will be found a letter from our Similkameen correspondent, which will be found interesting:

FORKS OF SIMILKAMEEN,
October 2d, 1860.

THE GOVERNOR'S VISIT—THE NEW TRAIL.
Editor British Colonist—The principal feature that I have to chronicle from these parts since my last, is the Vice-regal visit of His Excellency James Douglas and suite, who honored us with a stay of some twenty-four hours, on their way back from Rock Creek. The results of this visit cannot by any means be termed barren, as the opening up of a communication with Dewdney's trail, by means of a good road, is now *un fait accompli*. I believe I mentioned in my last that the Governor had ordered a road to be cut from the South Fork, but I was not aware at the time that it was intended to run so far as the new trail, or that it was such a good trail as it is now reported to be. Mr. Allison, who had the management of the affair, returned here yesterday, and reports having opened up the road some thirty-four miles, to where the engineers, who are surveying for Dewdney's party, are encamped. It appears that this road was first cut for the Hudson's Bay Company in '56, by Mr. Ogilvie, and that it was used one season by the Brigade, but afterwards abandoned at the time of the Fraser river excitement. Parties who have been out on it report that it is now in first-rate condition, and can be travelled over by wagons for the first twenty-five miles. As the Governor and party returned to Fort Hope by this route, and also the pack train of Mr. Harris, I have no doubt but that you will receive full particulars before this reaches you. The importance of the new road, both to Fort Hope and the Rock Creek and Similkameen districts, cannot be over-estimated. The distance between the Forks and the first mentioned place, can now be set down at seventy miles, over a really good road, which it is thought can be traversed during a great part of the winter. It is expected that provisions will be cheaper here very soon, as packing can now be done with profit at from eight to ten cents, there being plenty of grass along the route. Dunbar, the Expressman, came through by Dewdney's trail for the first time, and arrived here on the 30th. He reports the road very good up to its junction with the Bellingham Bay trail, which is very swampy, and rendered almost impassable by fallen timber. Now the South Fork trail being opened, it will obviate the necessity of proceeding by this road, except perhaps for parties bound from Hope to the Kamloops.

MINING NEWS.
In mining matters I have little news to report. Two or three fresh companies have set to work to turn the channel of the river, and will no doubt do well this winter. A party of four men working just below me on the South Fork, in the bed of the stream, which they turned round the side of an Island, are averaging half an ounce a day per man, and one of them panned out a nugget weighing over five dollars yesterday. Mr. Marshall, of New Westminster, has also commenced sluicing in the bed of the river, with a party of French Canadians, and the company are getting their share of the ore. I saw a piece of quartz picked out of the river by Mr. M., about the size of an egg, and full of gold, both seamed and speckled. This is the first piece of auriferous quartz that I have seen here, and owing to the absence, in any quantity, of that ore, the miners are coming to the conclusion that the gold must have been washed from the gravel hills and slides on either side of the river. Mr. Marshall has recorded a claim for two sluice-heads of water to be taken from the river, and intends cutting a ditch and bringing it to a large flat, which prospects remarkably well. I believe that the flats, when they are worked, will be found richer than the present channel of the river. It is a difficult matter to sink a hole through some of them, owing to the large boulders, and the depth of the bedrock. A Mr. Whitworth has also recorded a water privilege on a creek about one mile below the forks, and purposes bringing water to a bar near the mouth of it. The miners generally are making preparations for winter, and there are about a dozen log cabins built or under weigh on the South Fork. A Mr. Johnson, and the late Deputy Sheriff of Fort Hope, have just opened a store on the river, and we have also a prospect of milk and butter in the spring, as a ranch is in course of formation at Whipsaw Creek, and two cows are already on the spot.

PRE-EMPTING LAND.
An attaché of the Colonial Secretary's Office has pre-empted some land opposite the settlement at the Fork (which has been christened Princetown, by the Governor) and has commenced fencing and otherwise improving it.

MISCELLANEOUS.

No officials have as yet been appointed for the Similkameen, and a Recorder of Claims is much needed by the miners. At Rock Creek Mr. Cox has been appointed Commissioner, Collector, etc., and a Deputy Collector has also been stationed at the mouth of the Similkameen. Of course you will have heard all the particulars of His Excellency's visit to Rock Creek, where he met with a very cordial reception from the miners. It is to be hoped that from this time the duties will be collected regularly at that place on goods coming in from the Dalles, and that the Collector will not take the valuation of the Oregon invoices, which are pretty sure to be "salted," but tax the articles at their market price either at New Westminster or on the Creek, otherwise Victoria will not have fair play. Now that a good level trail exists from Fort Hope to Rock Creek, a distance of some 170 to 180 miles, it will be solely owing to a want of spirit and enterprise, if our traders cannot compete with those of Oregon.

ARGUS.

Progress of New Westminster—Str. Col. Moody arrived at Yale—The "Colonist" the People's Paper.

NEW WESTMINSTER, Oct. 19, 1860.
EDITOR BRITISH COLONIST:—The COLONIST. I find, is one of the great facts of these colonies—having a far larger circulation in New Westminster than even the New Westminster Times itself. "The Colonist," said a man on the street to me this morning, "is the people's paper, and the people patronize it." The folks here, as at Victoria, are indignant at the contents of the "Occasional Papers," and long and loud are the accusations brought against the "model letter writer."

Not having seen New Westminster for eight months, I was hardly prepared for the palpable signs of improvement everywhere visible. Trees are gone, and houses now stand in their places. Many of the houses are built in superior style. Near the Wesleyan Church, Mr. Calder has nearly completed a large and comfortable house, and another is about being erected near it. Near Scott's wharf, and adjoining Lytton Square, two large buildings, each 66 feet front, are to be built forthwith; whilst on every hand confidence is expressed in both this city and the entire colony. Columbia street is to be graded from end to end. The grading to be of the width of twenty feet. May and Douglas streets are to be cleared from the River to the Royal Avenue; whilst advertisements are issued soliciting tenders for cutting down all the trees on the public lands in the city. The Council seems to be possessed of energy, and if the colony should be blessed with representative institutions, and a truly liberal policy, this place must of necessity become of importance.

I fear the people in Victoria have been blinded to the true position of New Westminster. Its inhabitants are both intelligent and energetic, and so far from being in a state of banishment, are in many respects comfortable and contented.

The Col. Moody leaves to-day for Hope, with full freight, leaving much behind. On her last trip she went through the rapids to Yale—a feat due to the energy of Capt. Irving.

I saw twenty-eight fine potatoes taken this morning from a single stalk. So much for New Westminster.

OMNIUM.

A RICH EDITOR.—The editor of the *Prairie News*, published at Okolano, Miss., feels rich, and thus lets himself off on somebody who calls him poor: "We poor? No, sir, not by a jug full, we ain't. Why, we have a good library (made up, for the most part, of Patent Office Reports and Kansas speeches); a double-barreled pistol; six suits of clothes; fourteen shirts; a cat; a bull pup; a game rooster; a gold watch; seventy-five cents in clean cash, and no poor kin, and are going to have a pretty wife, and, as soon as possible, own a town lot."

COLONIAL THEATRE.—We were glad to observe a good house last evening at the Colonial Theatre. Victor Hugo's great drama of "Lucretia Borgia," was rendered in a manner that seemed to afford the audience much satisfaction—judging from the frequent applause. Miss Lulu's Lucretia was very much admired, and Mr. Beatty's Genaro, excellent. Mr. Mortimer, in the character of Cabetta, made a first-rate cold-blooded villain; H. B. Lane's Maffio was good, and Mr. Potter, as the Duke, surpassed all previous efforts. The dance by Miss Sweet, was very chaste and beautiful, and was well worth the price of admission. The song by Mr. Oliver was the best we have yet had the pleasure of listening to on the stage of the Colonial. The evening's entertainment closed with the "Dead Shot"—a laughable farce, which afforded much amusement to the audience.

THE MAIL STEAMER.—The steamer Oregon was advertised to leave San Francisco on the 15th instant, for this port. She may be looked for in a day or two, with five days later news, and the United States and European mails.

DR. ADOLPHUS'

ANTI-RHEUMATIC CORDIAL

—AND—

Health Restorative

IS THE MOST VALUABLE AND UN-
surpassed remedy for Rheumatism and Gout, to
be found in the world, or known at present. The
discovery of the above medicine does claim its infalli-
bility in all cases of Rheumatism and Gout—when
used according to direction—and does offer a reward
of five thousand dollars to any medicine that does
supercede it, and is entirely, veritable. The Doctor is
enabled to offer the above reward on account of his
having used the above medicine for ten years in his
practice, and has never known it to fail in the cure of
the most protracted cases of Rheumatism and Gout,
and without all known remedies to the profession
throughout the State, for his cures in Rheumatism,
Gout and Chronic Diseases, and has only to the con-
tinued urgent efforts of his patients, and through the
desire to help them who are not enabled to see him
personally, or to spend a fortune to get rid of the dis-
ease, which they have contracted in the pursuit of
their daily calling; only this has been able to per-
suade the Doctor to give the above medicine to the
public, and at such terms that every suffering one
should be able to reap the benefit of its value supercedes all the
wealth and riches of California; and is
creating a revolution in the whole treatment of dis-
ease throughout the world.

In secondary and tertiary Syphilis, Scrofula, En-
largement of the Glands, Dropsy, and all Nervous
and Cutaneous Diseases, and the whole train of Chronic
Diseases, which withstand and baffle the skill of
the most excellent and learned physician in the
world; in Chronic Diseases whose very name is a
terror as well to the patient, as to the physician, this
medicine has proved to be superior to any in exist-
ence, and has cured in so short a time that they ap-
peared like being abolished by magic influence, and
in fact a few more such discoveries, and druggists
hand, whenever they are prescribed once in a ten
score they have lost through time their properties in
which their value did reside, if there was actually any
in them.

Take this medicine when your digestive organs are
disordered and your blood is impure, it will surely
act on your bowels.
Take this medicine when you have a cold, and it
will make you perspire freely.
Take this medicine when your urinary and absorb-
ing organs are disordered, and it will act on your
kidneys—it penetrates every part of your body,
reaches even the most remote and secret recesses of
your system, and removes the disease located there—it
restores healthy action and gives tone to every
organ in the human body—therefore it has rightfully
deserved the name it bears: HEALTH RESTORATIVE.

The Doctor, who is adverse to all patent medicines,
wishes it to be understood that the above medicine is
no such thing; but that he has, through the instruc-
tion of this medicine with its treatise and directions,
made every sufferer to be his own physician
in the above named diseases.

Thinking it under my dignity to follow the mode
of quacks, by appending certificates of physicians or
private persons, which is too well known can be had
for certain remuneration, applications of friends, or
by the mode of boring a man half to death for even
the most worthless trash, I will therefore leave it to
those in want of medicine to inquire personally of
men who have been cured by my medicines of the
above diseases, and who can be found in almost every
city and village throughout the State. I consider
such personal conviction far superior to certificates of
persons that are far from being known to them in
want of medical aid.

But should any one care for written testimonials
or certificates regarding the cures performed by this
medicine, they might call at my office, and I will
show them certificates of true merit, which have been
sent to me voluntarily, without applying for them,
or by boring individuals to get them.

To satisfy the most scrupulous of men, also as a
guarantee to those that have not had the opportunity
of knowing the Doctor by reputation or personally, I
have adjointed to every bottle of the Anti-Rheumatic
Cordial, the certificate, under oath, of one of the most
celebrated analytical chemists in the United States,
that there are no minerals or poisons contained in
this medicine, although it is a very powerful medi-
cine, and has a very strong action on the human sys-
tem, which it necessarily must have, to overcome the
action of disease of such malignant character.

Wistar's Balsam of Wild Cherry
—The only pure and genuine Balsam is, and for
the last twenty years has been, prepared by Wm. W.
Fowler & Co., of Boston, and their printed name,
as well as the written signature of J. B. Wistar, appear on
the outer wrappers. As you would avoid the spu-
rious and have the genuine, take no other!
WISTAR'S BALSAM OF WILD CHERRY.—This in-
valuable remedy is the best one extant for the safe,
sure, speedy and permanent cure of Coughs, Colds,
Sore Throat, Bronchitis, Asthma, Pleurisy, Pneumonia,
Croup, Whooping Cough, Bleeding at the Lungs,
pain in the breast or side, and in fact every form of
Throat, Chest and Lung Complaint, as well as Con-
sumption itself.
This household remedy should be in the hands of
every family and individual, as a timely application of
it to a slight cold will cause immediate relief;
while cases of long standing, obstinate, and appar-
ently incurable character, will surely yield to its
wonderful curative powers and its great adaptation
to the wants of man when afflicted.
For sale in California by Redington & Co., Henry
Johnson & Co., Charles Morrill, San Francisco; R.H.
McDonald & Co., Sienra, Portland, Oregon.
Mayer, Smith & Davis, Portland, Oregon.

SPECIAL NOTICE.
"It can't be beat," say those who have used the
celebrated Anti-Rheumatic Cordial and Health Res-
torative, manufactured by Adolphus & Jungeman.
Thousands from all parts of California and Oregon
are sending in orders for more of this wonderful
remedy.
Those who have suffered worse than death from
rheumatic pains, experience speedy and effectual re-
lief from its use, and are daily sending their grateful
acknowledgements to these enterprising and scientific
gentlemen.
The lame, the halt, and all who are in any way
afflicted can rely upon being quickly and permanently
benefited by using Dr. Adolphus' Anti-Rheumatic
Cordial and Health Restorative.
Messrs. Lancelley Bros. Druggists, Yates st., are
agents for the above medicine at Victoria. o12

Hall's Sarsaparilla, Yellow Dock
and Iodide of Potass is prepared from the finest red
Jamaica Sarsaparilla and English Iodide of Potass—
admirable as a restorative and purifier of the blood,
it cleanses the system of all morbid and impure mat-
ter—removes pimples, boils and eruptions from the
skin—cures rheumatism and pains of all kinds. All
who can afford should use it, as it tends to give them
strength and prolong life.
Sold by Druggists generally at \$1 per bottle.
J. HALL & CO., Proprietors,
Wholesale Druggists, 143 and 145 Clay street,
